

Manu T S113079012Electrical EngineeringM.Tech.Indian Institute of Technology BombayMale

Specialization: Communication Engineering DOB: 30-08-1986

Examination	University	Institute	Year	CPI / %
Post Graduation	IIT Bombay	IIT Bombay	2013	8.27
Undergraduate Specialization: Electronics and Communication Engg.				
Graduation	NIT Warangal	NIT Warangal	2010	6.90
Intermediate/+2	CBSE	JNV Malampuzha, Palakkad	2004	86.00
Matriculation	CBSE	JNV Malampuzha, Palakkad	2002	86.10

# AREAS OF INTEREST

- o Communication Systems
- o Digital Signal Processing
- Information Theory
- Wireless Communication
- o Error Correcting Codes
- o Software Defined Radio

#### TECHNICAL SKILLS

- Operating Systems: Linux, Windows.
- Softwares Skills: GNU Radio, Scipy, Scilab and LATEX
- Programming Skills: C, C++ and Python
- Software Defined Radio Platforms: USRP, RTL SDR

# PROJECTS AND SEMINARS

- Google Summer of Code, 2013: LDPC codes and more FEC in GNU Radio (June 2013-Present) Mentor Dr.-Ing. Jens Elsner, CEL, KIT.
  - The project is to develop generic encoders and decoders for LDPC Codes in GNU Radio.
  - As a part of this project we also improve encoders and decoders for BCH and RS codes.
  - o Algorithms for obtaining LDPC Codes are also implemented.
  - Block for belief-propagation decoder is implemented.
  - $\circ$  Block for back-substitution encoding is implemented.
  - o Project is open-source and is available at https://github.com/manuts/ldpc
- M.Tech. Project: Application of LDPC codes to Multiuser Communications (July 2013-Present) Guide Prof. Sibiraj B Pillai, IIT Bombay.
  - LDPC codes are characterized by sparse parity check matrices
  - The project is to study LDPC encoding and decoding algorithms and extend them to multiuser scenario.
  - o Belief-propagation decoder and back-substitution encoder blocks are developed.
- DARPA Spectrum Challenge: (March. 2013-Present)
  - o During the hurdles and wild-card tournament we designed a transmitter-receiver pair, for two scenarios.
  - A pair of nodes competing against another to communicate a file in shortest time is designed.
  - $\circ$  A pair of nodes cooperating with two other pairs is designed.
  - All the pairs use same the same 5MHz frequency band.
  - Single-handedly pushed the team through wild-card tournament.
  - o In the wild-card tournament our team surpassed teams from top universities and industries.
- DSP Course Project: Design of Digital Filters (Nov. 2011)

Instructor - Prof. Vikram M Gadre, IIT Bombay.

- o Designed FIR and IIR filters.
- o Designed filters under band-stop, band-pass and low-pass responses.
- o Filters were designed under chebyschev and buttorworth approximations.

- M.Tech. Seminar: Resource allocation in Wireless Networks (Nov. 2011)
  - Guide Prof. Sibiraj B Pillai, IIT Bombay.
  - We studied optimal power allocation in flat-fading multiple access channels.
  - Schemes achieving rate tuples under information theoretic setup were studied.
- DSP Course Project: Localization of audio source (Nov. 2011)
  - Instructor Prof. Vikram M Gadre, IIT Bombay.
  - o In this project we designed a system to locate an audio source.
  - The delay between audio signals captured from two mics is used to locate audio source.
- B. Tech. Main Project: Study of Orthogonal Frequency Division Multiplexing (Jan. June 2010)
  - Guide Prof. P Harikrishna Prasad, NIT, Warangal.
  - The goal of the project was to study OFDM systems.
  - o Matlab simulation of an OFDM system was done as part of this project.

# COURSE WORK

- o Communication Systems
- Information Theory
- o Digital Signal Processing
- o Statistical Signal Analysis
- o Markov chains and Queuing System

- Error Correcting Codes
- o Digital Message Transmission
- Wireless Communication
- o Applications of Linear Algebra
- Optimization Techniques

# **ACHIEVEMENTS**

- Our team secured a spot in the finals of **DARPA Spectrum Challenge**.
- Our team won first prize in Junk-Yard wars in Technozion 2010.
- Best outgoing student of the year 2004 in JNV Malampuzha.

#### WORK EXPERIENCE

- Graduate Engineering Trainee ( C & I ), Adani Power Limited (July 2010-January 2011)
  - o Obtained training on various functional units like boiler, turbine, water-treatment etc in a power plant.
  - Exposure to super-critical thermal power plant.
  - Obtained two weeks of training on soft-skills during this period.
- Industrial Training: BSNL Kerala Circle (May 2008 June 2008)
  - $\circ$  Various aspects of GSM Architecture were studied.
  - o Training on OMC Radio, OMC Switch, Radio Planning and BSS were obtained.
  - RAN drive tests were done.
  - Realtime traffic analysis of telecom networks were conducted.

# POSITIONS OF RESPONSIBILITY

# • Teaching Assistant

I was assigned the duty of System Administrator in the following lab courses.

- o EE-318, Electronics Design Lab I, Spring 2012, Spring 2013.
- o EE-712, Embedded System Design Lab, Spring 2012, Spring 2013.
- o EE-389, Electronics Design Lab II, Autumn 2012.
- o EE-616, Electronics System Design Lab, Autumn 2012.

As the System Administrator I did the following things.

- Configure and maintain all the computers in used in the labs.
- Configure and maintain four server grade machines in the labs.
- Configured Apache server, FTP server, Samba server and DHCP server.
- Wrote a bash script to automate user maintenance.

# **HOBBIES**

• Reading, coding, music and movies.
